SpeedShare

These are preliminary specifications and are subject to change.

Key features

- ADSL modem with an RJ-45 Ethernet connection, suitable for ADSL, ADSL2 and ADSL2+ with a maximum downstream speed of 24 Mbps (depends on ISP contract)
- Ideal for intensive internet use, such as high quality streaming audio and video, IP television, internet telephony, video conferencing, etc.
- Simply add a switch to share your internet connection, music, movies, files and printers or play games in a home network
- Built in firewall to protect your PC from unauthorized access and attacks

14954 - ADSL 2+ Modem-Router MD-4050

With over 20 years of experience as the only independent manufacturer of affordable technological quality computer peripherals, Trust offers a complete and innovative assortment of 250 products. Each product is carefully developed with the focus on functionality and users comfort; in this process price in proportion to quality is of importance. The assortment is divided into four marketing concepts namely Portable Solutions, Bluetooth Solutions, Internet Telephony Solutions and MP3 Solutions and into twelve sub brands. This classifies the complete assortment in orderly product groups.

Trust International B.V. (www.trust.com) is active in 30 European countries. The product range is available through all the national and European wide retailers and resellers. More than 230 employees are working at the offices in the Netherlands, Germany, France, Spain, Italy, United Kingdom, Poland, Portugal, Czech Republic, Hungary, Austria and Switzerland. Trust offers complete services to both its partners and consumers.
